- Can be 'unlocked' to be used with other Land Rover models
- Future-proof – firmware can be upgraded as new applications are released
- Quick response
- Read fault codes
- Clear fault codes
- Live data
- Service reset
- Forced outputs/actuators
- Programming (specific applications only)
- Ideal for DIY enthusiasts as well as specialists

HawkEye

A new diagnostic tool for Land Rover vehicles

Designed and manufactured exclusively for Bearmach by Omitec Ltd using their experience in Land Rover Diagnostics.

The HawkEye diagnostic tool is extremely robust and comes with its own storage pouch. The keypad has large, well defined buttons and it is powered directly from the vehicle.

The clear graphical display is easy to read and features on-screen prompts to provide a quick response. The kit is supplied with a standard J1962 cable. Optional cables may be required for specific systems, please contact Bearmach for details.

The specific applications will allow you to access information from your vehicle. Functionality includes **READ** and **CLEAR** fault codes, **LIVE DATA**, **ACTUATORS**, Electronic Control Module Data and **PROGRAMMING** is available with some applications (see list inside).

When you purchase the HawkEye diagnostic tool you are automatically entitled to your **FREE** unlock code which will enable you to use the product on one Land Rover model of your choice.

Once purchased, the firmware of the unit is fully upgradeable as new applications are released.

You can also include more than one Land Rover model on your HawkEye diagnostic tool by purchasing further unlock codes, simply contact Bearmach on +44 (0)2920 856550 or www.bearmach.com for pricing information.

HawkEye *...is the electronic equivalent of a spare tyre!*

At Bearmach we sincerely believe the HawkEye is every bit as useful as carrying a spare tyre with you. It's compact enough to carry in the glove-box at all times particularly if you're on a long holiday journey or off-road adventure.

Modern vehicles have advanced engine management systems and hi-tech developments in suspension and braking systems – and so there's a host of problems that can only be properly identified using expensive equipment at the main dealers.

HawkEye is an inexpensive solution that gives the home mechanic or small independent garage the ability to diagnose most common faults. Once the fault is repaired, HawkEye can be used to verify the work and clear the fault codes.

The HawkEye Kit (BA 5070) includes:
