

BA 105 Discovery Lamp Guards Fitting Instructions.

Kit Contents:

2 x Lamp guards

2 x Strips of self adhesive foam rubber

- 1 Remove the access cover at the rear of the lamp unit.
- 2 Undo the 2 wing nuts which retain the lamp unit in position. Keep the retaining plates in a safe place.
- 3 Remove the lamp unit from the vehicle.
- 4 Fit the self adhesive foam strip supplied to the light aperture on the vehicle.
- 5 Slide the lamp guard over the lamp unit and place back into the aperture, trapping the tabs on the lamp guard between the gaskets.
- 6 Replace retaining/backing plates and wing nuts and tighten.
- 7 Replace cover.
